

Grade 3 Summer Reading Assignment

Children entering 3rd grade in September are to read 2 books over the summer. One book must be non-fiction and the second book must be fiction.

For the first book, choose a biography written by David A. Adler from his Picture Biography Series Books. There are many books to choose from about people such as: George Washington and Rosa Parks.

Take notes as you read about the important dates and events in the person's life.

After reading the biography, use white paper or construction paper to create a stamp to honor the person. Draw what you would want to see on a stamp to represent the person. Make your drawing related to the person's life. Use the whole paper. On the back, write 5-8 sentences about the person telling why we should honor him/her. Give details about his/her life.

For your 2nd book, choose the fiction book from the Geronimo Stilton Series titled: A Fabumouse Vacation for Geronimo.

Take notes as your read about the characters, where the story takes place, the main idea and important actions in the story.

After reading the book, use a 12x18 sheet of construction paper or posterboard to create a timeline. Choose 5 events from the story and write them in the correct order. Give a detail to explain each event. Draw related pictures to decorate your timeline. Give your timeline a title.

Please take your time to complete both assignments carefully and neatly. They should show your best work! Both assignments are due the Friday of the first week of school. Be prepared to tell your work in class. You will be graded on your written work and on your presentation in class.
